In its Farm to Fork Strategy the European Commission announced it will put a proposal for a new Legislative Framework for Sustainable Food Systems (SFS Law) by the end of 2023. Is your work or activism related to food systems, such as food production or diets? Then this new law should be on your radar, as it has a true potential to boost the transition towards more sustainable food systems. To make it a reality, we need to send the European Commission a clear message! Join us in this Webinar to learn more about the SFS Law and how to engage in the upcoming Public Consultation.
